**SOFTWARE DEVELOPER
WITH 5 YEARS EXPERIENCE**

GABRIEL
GONZÁLEZ MAÑANÁ

+ EXPERIENCE

2007 – 2010

FREELANCE CONSULTOR:
Working for over 8 years for local and North American companies and startups with titles such as software engineer, programmer and web developer.

2010 – 2012

BERRY WHALE S.R.L:
Worked on a hefty amount of applications, exploring different areas, including web programming, design, markup, project management, architectural design, web design, user experience, content management and quality assurance.

2012 – Present

PIXEL PERFECT TREE S.R.L:
Working on big international web applications building and consuming APIs, administrative interfaces and custom implementations. I've been writing Ruby and Javascript above anything else, jumping back and forth from back-end to front-end requirements, and self-taught a lot of technologies.

2012 – Present

FREELANCE PROJECT MANAGER & DEVELOPER:
Development of international applications remotely and paid by the hour. Have had notable success designing, managing and testing software made from third parties.
